Devon Winterson, Link Maxwell : It Happened on Tarantula Island before purchasing it in order to gage whether or not it would be worth my time, and all praised It Happened on Tarantula Island:

0 of 0 people found the following review helpful. Silly, wacky, fun read for teens and tweens.By Books to BreatheA perfect book for those who like silly scenarios, wacky word play, and nonsensical plotlines. A fun read for tweens and teens who don't mind a longer chapter book with the occasional challenge word. Highly recommend.2 of 2 people found the following review helpful. I loved this book!By Maria FaraldoI was lucky enough to receive "It Happened on

Tarantula Island” as an ARC and believe me when I say that this story is as crazy as drinking your own potions cause drinking them would be crazy but I’m not crazy! This story has everything a story should have, good characters, whales, pirates, scientist, treasure hunts and giant spiders... oh and Sidney of course! I recommend this book to all younger readers, this type of book is the type that would make young people love stories and it will boost their imagination. I will most definitely keep this one handy for when I have my own kids so I can read it to them. Devon Winterson and Link Maxwell have an exquisite imagination, let them transport you to Tarantula Island and you will find a treasure. 1 of 1 people found the following review helpful. Excellent. By steven morris Fun, funny, weird and wacky. A thoroughly enjoyable read . Thank you.

One loopy scientist, two enormous tarantulas, five bungling pirates, a suspicious chicken, and a ten year old boy with a fondness for whales come together on a small island within the vast folds of the ocean to discover utter silliness in a colorful adventure. Twisty mind-candy for both kids and good-humored adults still young at heart.
